

2nd CALL FOR PAPERS

International Women's Day Conference in Economics, Finance and Management hybrid conference organized at the University of Economics in Katowice

March 8-9, 2022

About the conference: The aim of the conference is to bring together academic researchers to celebrate the International Women's Day by promoting pluralism in economics, finance and management. We invite submissions both from female and male researchers interested in orthodox and heterodox approaches in their fields. We plan to organize sessions in Polish and in English. This year session topics will include (but will not be restricted to): digitalization, economic development, climate/environment, role of women in the economy and the herstory of economic thought.

We plan to sacrifice the first day of the conference to online presentations and the second day to in-person presentations, discussions and networking at the University. However, this plan depends on the pandemic situation, potential travel restrictions and the interest in sessions organized at the University among participants.

Keynote lecture: "Gender Differences in Negotiation: Evidence from Real Estate Transactions" by prof. Steffen Andersen (Copenhagen Business School)

Registration: All participants are asked to register using the form:
