The challenges of climate change, geopolitical tensions, technological breakthroughs and crises and shocks have led to considerable recent debate regarding the future of global value chains (GVCs) and global production networks (GPNs). Join us for a discussion with some of the authors of articles from a recent special issue of *Cambridge Journal of Regions, Economy and Society* (<https://academic.oup.com/cjres/issue/15/2>) on the changing dynamics of GVCs and GPNs in a time of uncertainty.
